## Psychology of Terrorism

By -

Oxford University Press, USA. Hardcover. Book Condition: New. This item is printed on demand. Hardcover. 512 pages. During the past decade, we have witnessed a dramatic transformation in the nature and uses of terrorism. In the 70s, it was often repeated that terrorists want a lot of people watching, not a lot of people dead; today, it is more accurate to say that terrorists want a lot of people dead, and even more people crippled by fear and grief. A major strategic intent of modern terrorists is to use larger scale physical attacks to cause stress in the general population. These changes in terrorist strategy have made it clear that we need better psychological and social responses to terrorism and man-made disasters. The psychological science needed to provide proper and effective treatment for victims of horrendous events, such as September 11th, and future potential terrorist acts, simply does not exist, so military, medical, and psychological experts must work together to improve their understanding of mass casualty terrorism. In Psychology of Terrorism leading national and international experts present the first results of this effort, including the newest findings on treatment of and clinical responses to terrorism along with their respective underlying...
