

## Cardiac Nursing (Cardiac Nursing (Woods))

---

By -

Lippincott Williams & Wilkins, 2004. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Now thoroughly updated with current, evidence-based material, Cardiac Nursing is recognized as "The Red Reference Book" for nurses caring for patients who have, or are at risk for developing, cardiac diseases. Organized within the framework of the nursing process, this comprehensive clinical reference provides complete information on the assessment, pathophysiology, management, and prevention of heart diseases and details the rationale and evidence for interventions. This edition has seven brand-new chapters on inflammation, atherosclerosis, genetics, heart rate variability, complementary and alternative medicine, disease management models, and nuclear and other scans. Boxes of evidence-based content have been added within chapters where appropriate.

### Reviews

*This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Natalie Abbott**

*This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.*

-- **Rene Olson**
