Reviews

This written publication is wonderful. It is probably the most incredible publication i actually have read through. Its been written in an extremely basic way in fact it is merely following i finished reading this publication where basically transformed me, alter the way i believe.

(Adan Fritsch)

THE ENVIRONMENT: TOWARDS A SUSTAINABLE FUTURE

Book Condition: New. Publisher/Verlag: Springer Netherlands | A sustainable future: a world in which sustainable development is possible and guaranteed? In this book, the Dutch Committee for Long-Term Environmental Policy, an expert advisory board to the Dutch Minister of Housing, Physical Planning and Environment, shows possible ways in which society can move towards a sustainable future. The book goes in search of a new social order, an order in which sustainability is guaranteed. This search holds four main elements: signs of hope: which positive initiatives and developments exist which will lead to a sustainable future? transformations: which transformations are needed to reach a sustainable future? philosophical and methodological reflections: can one predict the future? institutions: what are the necessary changes in the basic institutions of society to reach a sustainable future? The committee has invited well-known experts from different disciplinary backgrounds to check the existing social order from a point of sustainability and to give recommendations for a sustainable future. The central conclusion is that we are in need of an evolving green strategy aimed at sustainability. The contours of this strategy are described and a large set of recommendations to reach a sustainable future are given. As the committee states: `There is no certainty and no statistical probability for a sustainable future, but there is at least a chance.' | Introduction. 1. Long-Term Environmental Policy: Towards a Sustainable Future; CLTM. Part I: Signs of Hope. 2. Signs of Hope for the 21st Century? E.U. von Weizsäcker, F. Schmidt-Bleek. Part II: The Transformation to a Sustainable Future. 3. Socialization of Environmental Policy Objectives: Tools for Environmental Marketing; P. Ester, T. Mandemaker. 4. Management of Environmental Policy Networks; J.A. de Bruijn, E.F. ten Heuvelhof. 5. The Science/Public Policy Dialogue on Long-Term Environmental Planning; J.L.A. Geurts, J.M. Kasperkovitz. Part III: Internationalization. 6...
