paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 76 Publisher: China Power Pub. Date :2009-02-01 version 1. Book training program for general education test materials (Power Technology category). This book is divided into two parts. The first part of the basic knowledge of electronic technology experiments. including the basic task of experimental electronic technology. basic operating procedures. analysis of experimental data and experimental error of the basic requirements and test report preparation; second part experimental simulation of electronic technology. including common electronic knowledge of instrumentation used. single-tube common-emitter transistor amplifiers. FET amplifiers. negative feedback amplifier. emitter. differential amplifier. operational amplifier integrated indicators of testing fifteen experiments. All fields marked * are in the book contents are optional content. Book as a vocational college class power technology. automation. electronic information and other related class of professional analog electronics experiment teaching books. but also related to engineering and technical personnel as a reference book. Contents: Introduction The first part of the basic knowledge of electronics experimental experimental electronic technology 1.1 1.2 basic tasks of the basic operation of electronic technology experiment program of experimental data 1.3 1.4 experimental error of the basic requirements analysis and experimental simulation of the second part of preparation of the report Experiment a commonly used electronic technology knowledge of electronic instrumentation used single-tube experiment two common emitter transistor amplifier FET amplifier Experiment 3 Experiment 4 Experiment 5 negative feedback amplifier experiment six emitter differential amplifier integrated operational amplifier experiment seven indicators of test experiments eight integrated operational amplifier Linear Applications - simulation. integrated circuit experiment nine non-linear op-amp applications - Voltage comparator integrated operational amplifiers experiment ten of eleven test signal generator sine wave oscillator experiment twelve LC function signal generator assembly...
